- Arbitration, Fellowship Admission, Specialisation in Construction Law - Correspondence Courses in [2011/2012/2013](#)
- Fellow of Association of Arbitrators (Southern Africa) - Registered 2013

BCA Training:

- Construction Adjudication - April 2013
- FIDIC (Red Book) - July 2016
- FIDIC (Yellow Book) - August 2016

Professional & Other Memberships:

- Engineering Council of SA (Pr Eng - Number: 980697)
- SA Institute of Electrical Engineers (SAIEE)
- Law Society of the Cape of Good Hope
- Association of Arbitrators (Southern Africa) (F A Arb - Number: 3116)

EMPLOYMENT HISTORY and PREVIOUS EXPERIENCE

(Note: overlapping periods are due to concurrent roles - further details of responsibilities are available if

required)

Independently

Mid 2013 to Present

Arbitrator/Adjudicator

Serve as adjudicator or arbitrator for engineering and construction contractual disputes referred via the Association of Arbitrators (Southern Africa) or others.

Eskom - Group Capital

NOV 2011 to Present

Subject Matter Expert / Chief Advisor

Developing documentation and requirements and advising parties and functionaries in the Built Environment, particularly related to engineering and construction contracts, resolving and/or supporting functionaries in contractual disputes, conducting contractual related investigations and providing related training.

Eskom - Southern Region

End 2006 to OCT 2011

Contracts Manager / Senior Advisor

Accountable for establishment of Professional Services and Engineering and Construction (NEC) contracts, resolving contractual disputes and conducting contractual related investigations, advising project managers, managing project costing for investment approvals, contract negotiations and tender evaluations, processing contractor/consultant invoices and contractor/consultant technical evaluations, performance appraisals, training, communication (especially regarding safety, health, environmental and quality issues and for change control, instructions and bulletins) and forums.

Drake Flemmer & Orsmond Inc. Attorneys (while on sabbatical from Eskom)

JUN 2005 to end of JUN 2006

Candidate Attorney

Mainly commercial work including the review, modification and drafting of contracts such as agreements for construction.

Eskom - Programme 726/EDITT

DEC 2001 to JUN 2005

Wires Workstream Programme Manager

Accountable for all engineering transformation projects (e.g. metering, tele-control etc.) to convert Eskom Distribution's 7 regions to 6 new regions aligned to the Electricity Distribution Industry's Metro per Regional Electricity Distributor boundaries and creation of and response to strategic positions. Developed frameworks, structures and position papers and co-ordinated projects to strategically and operationally prepare the Eskom electricity distribution industry for restructuring (e.g. Wires Pricing and Contractual Ring-fencing).

Eskom - Southern Region

JUN 2001 to AUG 2002

Senior Engineer - Sustainability Index

Gathered, analysed, derived and submitted information relevant to key performance indicators. Subsequently, directed initiation and **management of projects** to positively improve the sustainability of region including the normalization of a 132kV power line. Provided and unpacked strategic options for senior management. Unpacked and developed compacting options around Maxicare (customer survey) for Engineering Management Team.

Eskom - Southern Region

FEB 2001 to JUN 2001

Procurement Manager

Managed procurement section - established, modified, 'maintained' and terminated general and term service and commodity purchasing agreements, supplier, professional service and other engineering construction contracts (NECs). Resolved construction contract disputes.

Eskom - Southern Region

End of 1997 to JAN 2001

Network Development Planning Specialist

Led and supervised the Rural Reticulation Planning team in Network Planning, as Senior Engineer from Aug 1998, primarily in the compilation of network development plans, supporting customer queries, electrification programmes and development of new processes and systems. (Prior to August 1997, besides training in various fields as engineering student and following graduation, fulfilled roles in a similar but more junior capacity.)

Northern Electric (United Kingdom)

AUG 1996 to AUG 1997

Working 'Scholar' - Confed. of British Industry

As an engineer in the Network Planning and Design department, primarily compiled network development plans and generated system studies for new supplies.
