**ICE Membership Grade:** Member  
**ECUK Registration Level:** CENG

**Contract Experience:**

---

- GCC 2004 AND 2010
- FIDIC
- NEC
- JBCC

**Career Overview:**

---

I worked as a contractor between 1968 and 1986 during which time I progressed from site engineer to Managing Director of an area operating company of a listed civil engineering company. I worked initially

on mining related contracts on the gold mines in Welkom and a copper mine in Prieska. I worked on the Iskor Steel Plant in Newcastle and the Coal Terminal in Richards Bay amongst many others. I have worked as a commercial and contractual consultant since 1986, initially with Swan Worcester and Fawbert. In 1988 I co founded Philip Loots and Associates and in 2000 Massey Doods and Associates (now MDA Consulting) with whom I am still working.

## **NEC Experience:**

---

I was first involved with the NEC in the early 1990's when it was first used by Eskom There has been a steady stream of contract disputes over the years that I have assisted the parties with. These include the Transnet (and Portnet) projects that we were appointed firstly to compile the Project Manuals for and subsequently were appointed as advisors to provide ad hoc advice to the consulting team. I have also been involved more recently in motivating and compiling claims for Eskom power station contracts (coal, diesel turbine and hydro) as well as the oil pipeline (NMPP) between Durban and Johannesburg.

## **Built Environment Experience:**

---

I spent the first 18 years of my working life working for Contractors. My last line management position was as managing director of an area operating company of the Civil Engineering division of a South African listed Construction Company. My experience was mainly heavy civil engineering construction. I have personal experience on the following types of construction

- Coal Mines Process plant
- Coal Terminals
- Gold Mine Process Plants
- Water Treatment Plants
- Sewage Treatment Plants
- Pipelines
- Silos
- Chimneys
- Coke Ovens
- Smelter Plants
- Blast furnaces
- Various factories
- Bridges
- Railway spurs

Since 1986 I have specialized as a commercial contractual consultant and have worked for most of the major employer and contractor bodies in Southern Africa in this time. I have had experience on the following projects:

- Pipelines

- Dams
- Roads
- Abattoirs
- Petrochemical Plants
- Platinum Mines
- Gold Mines
- Coal Mines
- Chrome Mines
- Diamond Mines
- Copper Mines
- Heavy Mineral Mines
- Andalusite Mines
- Nickel Mines
- Bulk Earthworks (10m m<sup>3</sup>)
- Tunnels
- Rail rehabilitation and plate laying

My main area of activity has been claim management both the formulation and defense of such. However I have also formulated conditions of contract for such projects as furnace rebuilds (FIDIC Construction Contract) and aquariums (a FIDIC EPC Contract) amongst others and I have presented in house and public training courses on such subjects as estimating, Claims and claim management and all the standard forms of contract commonly used in South Africa. I have also acted as an Adjudicator both standing and ad hoc on a number of projects.

## **Other Professional Activities and Publications**

---

I am heavily involved in training work. I regularly contribute articles of topical interest to the construction trade press.
